Revision No. 00

Prepared By: **Yahya Rachid Mouse** (Logistic and supply Manager)

Reviewed By: **Ahmed Abdilahi Ali** (Operation Manager)

Approved By: **Abdiselan Ismail Nour** (General Manager)

We are committed to delivering safe, reliable, and efficient fuel storage, handling, and distribution services for diesel, gasoline, jet fuel, and LPG, supporting industries and businesses across East Africa. Our QHSE Policy establishes a robust framework to ensure excellence in quality, health and safety, environmental stewardship, and operational performance, while consistently meeting regulatory requirements and exceeding customer expectations.

#### Focuses On:

- Establish clear project objectives, accountability, and effective communication.
- Ensure rigorous quality control throughout the project lifecycle.
- Drive continuous improvement through audits, feedback, and innovation.
- Comply with safety regulations, environmental laws, and QHSE protocols.
- Provide training to enhance safety awareness, competencies, and operational excellence.
- Reduce waste, manage resources sustainably, and lower carbon footprints.
- Promote energy-efficient designs, technologies, and sustainability through innovation.
- Maintain a safe, healthy workplace and mitigate operational risks.
- Deliver high-quality, client-focused solutions while adhering to standards.
- Allocate adequate resources for QHSE implementation and improvement initiatives.
- Collaborate with stakeholders to address non-conformities and uphold best practices.
